1550WDM Multiplexer

Lumentum 1550/1590 nm filter wavelength division multiplexers (WDMs) are specifically designed to multiplex or demultiplex C- and L-band optical signals in dual-band erbium doped fiber amplifier ...

The 1310/1550nm Wavelength Division Multiplexer (WDM) offered by GEZHI Photonics is a single-mode optical component that combines or separates ...

SENKO"s Wavelength Division Multiplexer (WDM) is based on thin-film filter technology, and has two types of isolation which are standard isolation and high isolation.

The MX WDM Fiber Optic Wavelength Division Multiplexer, enables 1310nm and 1550nm wavelengths to be transmitted simultaneously on the same fiber optic cable. The direction of the optical signals ...

The 1310/1550nm Wavelength Division Multiplexer (WDM) offered by GEZHI Photonics is a single-mode optical component that combines or separates light at different wavelengths.

Description ode Wavelength Division Multiplexer combine or separate light at different wavelengths. T ey offer very low insertion loss, high isolation and excellent environmental stability. These compon

AFL"s FTTx WDM Module is designed to satisfy requirements utilizing 1310, 1490 and 1550nm bandwidths in FTTx applications.

The PMDM 980/1550 is a 1×2 Wavelength Division Multiplexer (WDM) that combines a 980 nm pump laser with a 1550 nm signal laser into a single polarization-maintaining fiber. The pump input ...

n, China 518109 Web-site: htps:// The 1310/1550nm Filter Wavelength Division Multiplexer is based o. environ-mentally stable thin-film filter technology. The devices combine or ...

Singlemode Wavelength Division Multiplexer (1310/1550, 1480/1550) (WDM Series) Rev 11 The Singlemode Wavelength Division Multiplexers combine or separate light at different wavelengths.

Note1: All values specified are without connectors. Note2: Higher performance specifications available upon request. Note3: Fiber Type - Corning SMF-28e fiber unless otherwise specified.
