40km 10 Gigabit Optical Module

Get the most out of your network equipment with this 10 Gigabit 10BaseG-ER ...

High-performance 10GBASE-ER SFP+ optical transceiver. Delivers reliable 10 Gigabit Ethernet connectivity up to 40 kilometers over single-mode fiber (SMF) using a 1310nm wavelength and ...

Providing 16 dB link budget over 40km single-mode fiber, this 10G CWDM module enables high-capacity metropolitan and regional connectivity. Supporting multi-rate operation from 1.25 to 11.32 Gbps, ...

10G SFP+ CWDM 40KM LC Optical Transceiver is a high-performance, hot-swappable module designed for 10 Gigabit Ethernet and fiber channel networks.

This CWDM SFP+ ER transceiver module is designed for 10 Gigabit Ethernet links up to 40km over single-mode fiber. It features a highly reliable CWDM EML transmitter and PIN photo-detector into ...

Get the most out of your network equipment with this 10 Gigabit 10BaseG-ER SFP+ Fiber Modules from Networx®. SFP or Small Form Pluggable Optical Modules are compact, hot-swappable media ...

Featuring a built-in Semtec/Macom chip and reliable DFB laser from global leaders, the 10G SFP+ ER1310 module delivers low power consumption and stable optical links for high-speed single mode ...

Designed for long-haul applications, this transceiver module operates at a 1310nm wavelength and supports transmission distances of up to 40 kilometers, making it ideal for wide-area network (WAN) ...

Understand SFP+ 40km (10GBASE-ER) modules, including specs, SMF compatibility, and how to choose the right extended-reach optical transceiver for your network.

The single mode 10G SFP+ transceiver is equipped with a duplex LC fiber connection interface, and supports high-speed data rates up to 10.31Gbps. All TRENDnet 10G SFP+ fiber modules support ...

Operating at a wavelength of 1310nm, this high-performance module supports transmission up to 40 kilometers and is fully compliant with SFP+ MSA and IEEE 802.3ae standards.
