

# ACIA Coherent Optical Module

The new optical module is likely the first in a series of coherent optical transceivers aimed at point-to-point edge and access network applications. Acacia Communications is sampling a...

Acacia is widely recognized as a pioneer of silicon-based PICs for coherent optical communications--the highly integrated Silicon Photonics single-chip PICs are low power and ultra ...

Designed to transmit and receive data in both directions on a single fiber for 100G and beyond. Provides an operationally efficient and cost-effective way for telecommunications and cable operators to ...

Acacia Communications, Inc. (Nasdaq: ACIA), a leading provider of high-speed coherent optical interconnect products, today announced that its AC1200 coherent module has been awarded...

Acacia Communications, Inc. (NASDAQ: ACIA), a leading provider of high-speed coherent optical interconnect products, today announced that its family of 400G pluggable coherent solutions ...

In the digital age, optical communication technology is evolving at an astonishing speed, and coherent optical modules, as its core components, are ...

CFP2-DCO Coherent transceivers are fully tunable across the 50GHz ITU-T grid frequency range, and support flex-grid DWDM tuning. It can soft-select among three phase modulation schemes for ...

High-speed short-reach optical interconnects to link devices associated with AI training clusters. Interconnecting a wide range of traffic from central offices and data centers within a metropolitan ...

Coherent optical interconnects company Acacia Communications (NASDAQ: ACIA; Maynard, MA) announced its AC1200 Coherent fiber-optic communications module based on its Pico digital signal ...

Maynard, MA (GLOBE NEWSWIRE) - Acacia Communications, Inc. (NASDAQ: ACIA), a leading provider of high-speed coherent optical interconnect products, today announced its AC1200-SC2 (SC ...

CFP2-DCO Coherent transceivers are fully tunable across the 50GHz ITU-T grid ...
