

# ASEAN High Voltage Busbar Bushing

Our design provides a large contact surface area, which helps to enhance electrical conductivity and offers a high current carrying capacity, while ensuring reliable electrical performance.

These cater to various requirements of mechanical and allied industries. Our products are widely appreciated for their salient features. The range offered by us comprises Post Insulators, LV/High ...

Discover our high-voltage custom busbars for electric vehicles. Supports a wide range of applications including but not limited to battery packs, battery distribution units, and electric propulsion and control ...

Our busbars can be combined with fasteners of all shapes and sizes but when combined with our HPLB (High-Power Lock Box) terminal we can eliminate all loose fasteners and provide a self-aligning, ...

To connect various high voltage (HV) components to the HV system, we also deliver a wide variety of busbars. In cooperation with the customer, these can also feature our Bus Bar Insulation Tubing (BBIT).

Custom designed to fit your space constraints while providing distinct electrical benefits, including low inductance, minimal voltage drop and specified partial discharge level.

is committed to manufacturing high quality power distribution grid equipment and integrated solutions. Products include Silicone Rubber Cable Accessories, APG Bushing, Busbar, Charging piles and ...

epoxy resin high voltage busbar bushing 1.The use of epoxy resin automatic pressure gel craft that APG technology manufacturing, product appearance, mechanical, electrical performance. 2.Selection of ...

High volume busbar production: employing craft precision. One of the signature products developed by Intercable Automotive Solutions are our custom made high-voltage busbars manufactured to client ...

Our HV Busbars provide a reliable solution for compact high-voltage power distribution. With high conductivity and a robust design, they deliver maximum performance in minimal space - efficient, ...
