

Around the overhead optical cable suspension line

Superior quality accessories for overhead optical networks and facades: clamps, staples, connection retainers, anchoring and much more.

The bending radius of optical cable during laying process should be effectively guaranteed to avoid "gold hooks" and avoid too much tension, abrasion and too many times of twists and turns.

The document provides installation instructions for a single suspension set used to hang fiber optic cables.

The unique design of the lightweight AFL Mechanical Suspension supports spans of optical ground wire (OPGW) cable through a wide range of line angle changes.

We offer a full range of AB Cable (Aerial Bundled Cable) accessories and fittings which conform to NFC and IEC standards. These products are available for all ...

When the optical cable line crosses the power line, it is necessary to contact the local electrician and take power suspension or other safety measures before the cable crossing ...

Our Aerial Mounting Hardware selection includes heavy-duty, weather-resistant components designed specifically for securely suspending cables in overhead installations.

On joint lines, the rope shall be passed over the strand using tree pruner handles or a wire raising tool. If two employees are present, both shall grip the double rope and slowly transfer their entire weight to ...

Fiber optic cable sequential numbers are required at each pole location and vault wall. Sequential numbers will identify conduit length, and slack left in vaults and at poles.

Suspension clamps are used in the overhead transmission lines to suspend or hang cables from the transmission lines. They provide protection to the conductors by ...

Fiber suspension clamp is a connection fitting designed for overhead optical cables, used to hang optical cables on transmission line towers.

We offer a full range of AB Cable (Aerial Bundled Cable) accessories and fittings which conform to NFC and IEC standards. These products are available for all varieties and sizes of AB Cables.

We will explain the handling method in detail in the later part of laying the suspension line.
