

Coherent 5KW Optical Power Meter

Get the best deals for Coherent Laser Power Meter at eBay . We have a great online selection at the lowest prices with Fast & Free shipping on many items!

This PM3K-100 sensor is a water-cooled kW laser power sensor intended for measuring lasers up to 5000W. It's large 100 mm diameter active area is designed for measuring direct diode lasers and ...

Laser power and energy meter, USB and RS232 PC interfaces, analog output, external trigger input, 10000 pps pyroelectric pulse repetition rate. 20 kHz and 625 kHz sampling modes available with Fast ...

Take complete control of your laser using a range of power and energy meters that deliver accuracy, traceability, and a full set of features.

Coherent's High Power Water-Cooled Thermopile Sensors are designed to withstand high power lasers up to 5kW. The water-cooling mechanism reduces the heat transferred to the sensor from input ...

1nW-20W 200nm-1100nm High Accuracy, Affordable, Compact Integrated Power Meter and Detector with USB Radiantis

Coherent has extended its series of large area, high speed, PowerMax-Pro laser detectors to enable power measurement of continuous-wave modulated laser beams of 3kW and 5kW peak power.

This PM3K-100 sensor is a water-cooled kW laser power sensor intended for measuring lasers up to 5000W. It's large 100 mm diameter active area is ...

Measure both high-power CW and pulsed lasers at rapid sampling rates for better control and improved results in commercial, scientific, and medical applications.

Laser Power Meters are ideal for measuring the energy output of laser beams for testing or laser system applications at Edmund Optics.

Measure laser power and energy with ease and precision over a huge range of wavelengths, power levels, and pulse energies with Coherent Laser Power and Energy Meters.

Coherent 5KW Optical Power Meter
