

# Connection harness for industrial switch equipment

Y.C. Cable manufactures custom industrial wire harness assemblies designed for automation systems, machinery, and control applications. We build wire harnesses based on your drawings, ...

HARTING develops, manufactures and sells electrical and electronic connectors, device terminations, network components as well as cable harnesses for networks or machinery, or for power and data ...

We provide various industrial wiring harnesses for you. All our wires, cables, and accessories are UL, CE, VDE or other safety certifications.

Built for rugged performance, Temp-Pro's cable and wire harness assemblies support military, energy, and OEM applications with custom configurations.

Industrial wire harnesses are engineered to meet application requirements, with defined lengths, termination points, and protection elements such as sleeving, conduit, or cable ties.

Each wiring harness and electrical assembly in our collection features robust construction, high-quality conductors, and precision manufacturing that delivers optimal electrical performance, reliable ...

Kato Cable engineers reliable custom industrial wire harnesses and cable assemblies for OEMs, ensuring durability, safety, and seamless electrical connectivity.

FPIC provides custom wiring harness and cable assembly services for demanding industrial environments. From prototype development to volume production, we support OEM and ODM ...

Stantek provides custom industrial wiring harness manufacturing for machinery, automation, and control systems with dependable performance.

We stock a large and diverse inventory of wire, terminals, and components for wire harnesses from all the industry leaders, including Tyco / AMP, Molex, Packard, Delphi, Panduit and many more.

Y.C. Cable manufactures custom industrial wire harness assemblies designed for automation systems, machinery, and control applications. We build wire ...
