

Danish fiberglass flame-retardant cable trays

Our cable trays and ladder systems are made from combining fiberglass and resins that are resistant to corrosion, fire, and electrical conductivity - making them ideal for use in a variety of industries ...

Armorduct Systems" Cable Tray has achieved a E90 Fire Rating after carrying out testing in accordance with DIN 4102-12 at FIRES notified Technical Assessment Body (TAB), which is managed in ...

Made from the highest quality pultruded materials, our Fiber Reinforced Polymer (FRP) cable tray is extremely durable and resistant to chemical attack, with a proven record of performance in the most ...

These trays are treated with a fire-resistant coating that forms an insulating layer during a fire, significantly reducing the risk of fire spread. This makes them a top choice for high-risk ...

It is manufactured from fiber reinforced polyester or vinyl ester resin so it has high corrosion resistance, long service life and low maintenance compared with traditional steel cable trays.

Cablofil cable tray is the preferred choice for the cable containment of low and high voltage electric cables where fire resistance is crucial - this includes cable basket tray systems for Prysmian FP ...

We provide a variety of options that include different materials and finishes, such as powder-coated aluminum, galvanized steel, and fiberglass with intumescent coatings, all designed to improve fire ...

These trays are treated with a fire-resistant coating that forms an insulating layer during a fire, significantly reducing the risk of ...

Created from glass armoured thermoset fire resistant resins, our each cable support system is designed and supplied with sturdy metals, mostly steel and aluminium, excluding their corrosion, electrical ...

Basor Electric, sensitive to the need to minimize the consequences of a fire, has subjected its cable trays to rigorous fire resistance tests to ensure the behavior of its products.

MP Husky Fiberglass Cable Tray is available in both polyester and vinylester resin systems. They are manufactured to meet ASTM E-84, Class 1 Flame Rating and self-extinguishing requirements of ...
