

# FC Round-Head Fiber Optic Splitter

Explore our comprehensive selection of high-performance fiber optic splitters. We offer a variety of PLC splitter types, including ABS box, LGX cassette, and rack-mount options with multiple split ratios.

This optical fiber box is compatible with FC/U round SC/A SC LC LC/A connectors, making it perfect for various applications. It is specifically designed for FTTH installations, providing ...

Explore our collection of optical cable splitters and PON splitters for sale. Optical beam splitters are used to split the fiber optic light evenly into several parts at specific ratios.

Fiber optic splitters include PLC type fiber optic splitters and FBT type fiber optic splitters. Available in single mode and multimode with 900&#181;m loose tube fiber or 250&#181;m bare fiber connectorless or any ...

A high-quality fiber optic box splitter for FC/UPC round head, designed for reliable wavelength transmission in telecom grade applications. Ideal for fiber optic equipment needs.

Fiber optic splitters are critical components in today's fiber networks. They're commonly used to connect a central office to terminal equipment and, eventually, to end users in FTTX applications.

Clearfield leads the way with optical component technologies for PON splitting, C/W division multiplexing and optical circulators. These products are custom built to your unique split ratios, light requirements ...

Our SM and double-clad fiber coupler offerings also include a selection of components ideal for OCT applications.

FS PLC Fiber Optic Splitters, Bare/Blockless/ABS/LGX Splitter/Rack Mount Types, support 1xN light distribution, with low IL and PDL for high-reliability transmission.

Because of its high stability and low insertion loss, the FBT Fiber Splitter is critical for GPON FTTx networks and may be deployed in Central Offices or multiple distribution sites (outdoor or indoor).
