

Compared to traditional approaches, these strategies exhibit several distinct advantages, such as the ability to efficiently handle large amounts of data while ensuring data security, flexibility in ...

Heterogeneous definition: Differing or opposite in structure, quality, etc.; dissimilar; incongruous; foreign.

Despite these limitations, heterogeneous networking is valuable for situations where communication is desirable. Accordingly, this paper aims to evaluate a review on WSN, heterogeneous networking, ...

Adjective heterogeneous (comparative more heterogeneous, superlative most heterogeneous) Diverse in kind or nature; composed of diverse parts.

Title 45 Subtitle A Subchapter C --Administrative Data Standards and Related Requirements Part 164 Subpart C --Security Standards for the Protection of Electronic Protected Health Information § 164.312

The report outlines security challenges faced in heterogeneous tactical networks and elaborates on possible solutions. The purpose is to provide architecture and design guidance to securing such ...

heterogeneous (*ˈhɛt̩r̩əˈdʒiːniəs*) adj 1. composed of unrelated or differing parts or elements 2. not of the same kind or type

heterogeneous, adj. meanings, etymology, pronunciation and more in the Oxford English Dictionary

In this paper we introduce Hercules, a novel CC protocol designed to handle heterogeneous requirements. Hercules is based on an online learning approach and has the capability to support ...

Based on this, this paper proposes the construction of security control and protection of communication terminals under the heterogeneous network environment of the power grid.

This Recommendation specifies requirements for data security of heterogeneous Internet of things (IoT) devices, including, under specific scenarios, a data security threat (DST) and requirement model.

heterogeneous: Consisting of dissimilar elements or parts; not homogeneous. *<i>synonym</i>*; *miscellaneous*;

When something is described as heterogeneous, it indicates that it is made up of different components, qualities, or types that may not necessarily be uniform or similar in nature.

Heterogeneous Requirements for Network Security Equipment

The meaning of HETEROGENEOUS is consisting of dissimilar or diverse ingredients or constituents : mixed.
How to use heterogeneous in a sentence.

The paper proposes a security management method that provides risk analysis and processing based on the use of an intelligent agent system distributed over network segments, which provides a ...

HETEROGENEOUS meaning: 1. consisting of parts or things that are very different from each other: 2. consisting of parts.... Learn more.
