

High-precision backplane connector with three-year warranty

Mouser is an authorized distributor for leading backplane connector manufacturers such as Amphenol, HARTING, ITT Cannon, Molex, Samtec, TE Connectivity & more. Please view our large selection of ...

Enabling AI-driven data center upgrades to 224G data rates, the Inception system is a hermaphroditic backplane system of connectors and twinax cable assemblies that delivers exceptional signal ...

Samtec's XCede[®] HD high-density backplane system features a small form factor ideal for density-critical applications, and a modular design for flexibility and customizable solutions.

Backplane connectors are used in high-reliability applications such as computer buses and often employ secure fastening hardware for board, free-hanging, through-hole, and panel mounting depending on ...

CA Series(TM) high performance 32 Gb/s+ compression mount connectors & interposers offer exceptional signal integrity and high density for applications like high-speed backplane, mezzanine, edge card, ...

Explore Amphenol's high-speed backplane connectors, delivering industry-leading density and performance for today's most demanding systems. Achieve maximum signal integrity ...

Amphenol, 10123359-111LF, Backplane Connector - Header - Male Pins - High Speed - 120 Position (All Loaded) - 10 Columns - Protective Cover - Press-Fit - Through Hole.

Connectors for use in a backplane system, in which several connectors are linked in parallel in order to form a computer bus.

Our portfolio of backplane connectors features high-performance right angle, co-planar, and mezzanine interconnects, used for mating printed circuit boards together. TE engineers use sophisticated 3D ...

Buy Backplane Connectors. Newark Electronics offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

High-precision backplane connector with three-year warranty
