

Hot aisle and cold aisle immersion liquid cooling manufacturers

Data center liquid cooling technologies for high-density computing. Advanced DLC, RDHx, and immersion cooling solutions engineered by Triton Thermal experts.

Following a collaborative, customer-driven approach, we provide the best containment options for each project. Whether ceiling hung or integrated with aisle structure, our containment solutions are ...

Whether implementing hot-aisle or cold-aisle containment, we are dedicated to delivering reliable, precisely fitted products. WindChill Engineering launched in 2012, building on more than four ...

Explore our end-to-end liquid cooling solutions for AI, high-density IT, and sustainable thermal performance.

End-to-end data center waterless cooling solutions across North America and Europe. ThermalWorks is the first ultra-efficient waterless cooling solution designed to support high density AI loads. Gigawatt ...

Your partner for integrated liquid cooling infrastructures. Discover direct-to-chip and immersion cooling for high-performance computing and data centers.

Cool Shield(TM) containment offers state-of-the-art hot and cold aisle containment solutions designed to maximize data center efficiency while significantly reducing power consumption.

Upsite AisleLok containment solutions and portfolio of aisle airflow management products are designed to improve cooling effectiveness and efficiency by enhancing airflow management.

The Uniflair LE room cooling series scales from 20kW to 220kW with hot aisle containment integration. Netflix deployed Schneider's hybrid air-liquid cooling achieving 99.99% ...

LiquidStack holds multiple awards for building the world's most efficient liquid cooled data center solutions. From micro data centers to hyperscale sites, we have the experience to deliver your ...
