

Huawei 10 Series Core Switches

With multiple industry-leading intellectual properties and patents, Huawei provides more than a hundred switch models in more than 10 series, including access, aggregation, and core switching.

The Huawei S6730-H Switch series answers with high-density 10 GE access, robust Layer-3 capabilities, VXLAN virtualization, and intelligent O& M. Positioned perfectly as an ...

CloudEngine S6750-H series 10GE switches are Huawei's next-generation enterprise-class switches designed for core and aggregation layers, with 48 × 10GE downlink optical ports and 8 × 100GE ...

Huawei Ethernet Switches Turbocharge your enterprise network with high-performance, high-availability for resilient services and simplified management.

Huawei CloudEngine S6730-H series switches are next-generation enterprise-class core and aggregation switches that offer high performance, high reliability, cloud management, and intelligent ...

The switch supports user-defined traffic forwarding modes, forwarding behaviors, and search algorithms. The switch has a built-in high-speed and flexible processor chip designed specifically for Ethernet.

The CloudEngine S6730-H-V2 series offers a range of next generation 10 GE routing switches with 24, 28, or 48 downlink ports plus 6 x 40 GE uplink ports -- which ...

The CloudEngine S6730-H-V2 series offers a range of next generation 10 GE routing switches with 24, 28, or 48 downlink ports plus 6 x 40 GE uplink ports -- which can be expanded to 100 GE through ...

In the era of "right-sizing," the Huawei 10 port switch proves that strategic minimalism beats oversized excess. It's not a one-size-fits-all solution, but for businesses prioritizing cost, ...

With chassis models like S8700-04, S8700-06, and S8700-10, this series delivers unparalleled bandwidth (up to 16 Tbps), deep virtualization support, MACsec, silicon-based TCP ...
