

Huawei Optical-to-Electro-Mechanical Multimode Optical Module

02310MNW 02310MNW - Genuine Huawei SFP-10G-USR 10GBase-USR Optical Transceiver, SFP+, 10G, Multi-mode Module (850nm, 0.1km, LC)

In the AI era, Huawei provides a full range of GE to 800GE optical modules, featuring three major capabilities: Spanning (ultra-long transmission), Stable (ultra-high reliability), and Secure (ultra-solid ...

Huawei offers a comprehensive portfolio of pluggable StarryLink optical modules for data center networks, with various models providing flexible plug-and-play solutions tailored to diverse interface ...

An SFP+ optical module is an enhanced version of an SFP optical module and supports data rates up to 10 Gbit/s. An SFP+ optical module supports multiple rates, such as FC800, 10GE WAN, 10GE LAN, ...

In addition to the optical-to-electrical conversion function, the optical forwarding module integrates many signal processing functions, such as MUX/DEMUX, CDR, function control, performance data ...

QSFPS has the Huawei Compatible transceiver module eSFP-GE-SX-MM850 in stock and ready to ship. We can ship them out in 24 hours after we get your order. We ship to everywhere across the ...

To determine whether optical modules delivered for Huawei switches before July 1, 2013 are certified ones, contact Huawei technical support. If your optical modules are delivered after July 1, 2013, use ...

The Huawei eSFP-GE-SX-MM850 module is a 1 Gbps optical transceiver for multimode fiber, offering a range of 550 meters at 850 nm with a VCSEL laser. It complies with SFP MSA and IEEE 802.3z ...

Huawei eSFP-GE-SX-MM850 Optical Transceiver, eSFP, GE, Multi-mode Module (850nm, 0.55km, LC). Table 1 show the quick specification. Figure 1 shows the appearance. eSFP-GE-SX-MM850 can be ...

Form factor: SFP+ Application standard/Type: 10GBASE-SR Connector type: LC Optical fiber type: MMF Type of the end face of the fiber ceramic ferrule: PC or UPC Working case temperature [$^{\circ}$ C ($^{\circ}$ F)]: 0° C ...

Multimode optical modules are used with multimode fibers. Multimode fibers have lower transmission performance than single-mode fibers because of modal dispersion, but their costs are also lower.

The Huawei eSFP GE SX MM850 02315204 Optical Transceiver is a high performance, small form factor pluggable (SFP) transceiver module designed for use in Huawei networking equipment. It is ...
