

Industrial switches are available with a protection class of either IP67 for mounting directly in the field or on the machine, or IP20 for installation in the control cabinet.

These robust switches are designed for industrial use and are fully compliant with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab. PoE + Ethernet switches are offered with 30W per channel. 60W and ...

With high-speed 10-GE uplinks, high-wattage PoE options, ultra-low jitter, advanced network security features, and device-to-cloud performance monitoring with the Cisco ThousandEyes agent, these ...

Our switches are built for high network flexibility, cyber security and durability and are suitable for use in mission-critical environments.

Unmanaged Power-over-Ethernet switches with IP20 and IP65 protection are ideal for simple PoE applications with up to eight PoE PDs . The robust unmanaged and managed switches with ...

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to ...

A high-level overview of Cisco IP66/IP67-rated industrial switches, their features, benefits, and use cases in different industrial sectors

Industrial Ethernet Switches are IP20- or IP67-rated, built ruggedly to withstand challenging environments and operate dependably in a variety of harsh condition (temperatures, vibrations).

To ensure that the system will operate with other Ethernet-enabled devices and IP applications, Perle IDS Switches use IEEE standards-based protocols. This also facilitates integration between ...

FS Industrial Ethernet Switches with robust design for harsh industrial and outdoor environments subject to vibrations, shocks and extreme temperature fluctuations from -40° to 75° generally.
