

# Industrial-grade communication optical cables

We specialize in providing leading edge solutions and manufacturing technology products such as industrial networking cables, illumination fibers, medical assemblies and optical sensors.

OCC's experience in engineering and manufacturing fiber optic cables, connectors, and enclosures designed for severe environments, including military tactical deployment, means our products deliver ...

Selecting the right industrial fiber optic cable requires careful consideration of performance, durability, and environmental factors. This guide walks you through everything you ...

These UV-rated industrial fiber optic cables have a steel jacket molded into a helical pattern to protect the interior fibers, as well as two strength members of high-grade steel wire for exceptional durability. ...

Professional fiber optic solutions for industry: Industry 4.0 networking, robust DIN rail systems and deterministic networks for manufacturing environments.

Lightera provides rugged, durable and reliable optical fiber systems for digital manufacturing, automation, energy monitoring and protection, smart cities and Industrial Ethernet.

Use the chart below to find the right fiber optic cable for your environment. Locate the fiber type, fiber count, and construction and whether you want a plenum or riser cable.

FiberTech Optica manufactures fiber optic cables for harsh environments, resistant to heat, pressure, and severe industrial conditions. Contact us!

Armored, burial, and ruggedized designs are suited to a host of industrial environments. For each product design, items for OM1, OM3, OM4, OM5, and OS2 (Singlemode) items have been developed.

With the patented digital diagnostic capabilities on the transceivers, the Ethernet Switch can monitor the link characteristics, such as receive optical input power, and provide early warning alarms to ...
