

Intelligent Visual Distribution Box

To ensure that technicians can easily access key information, we have equipped each distribution cabinet with detailed drawings. These drawings are not only convenient for technicians to consult at ...

Our intelligent and mechanical boxes in the area of power and data distribution offer modular solutions for all voltage levels and at the same time optimize functionality - for maximum efficiency with ...

As a power distribution equipment company, we supply high-quality power distribution equipment including high-voltage distribution box, low voltage electrical distribution box, industrial power ...

The present invention provides an intelligent distribution box and a signal transmission method.

Solutions for smart low voltage electrical distribution Digital technologies such as Cloud Computing, Big Data, Internet of Things (IoT), Artificial Intelligence (AI) and Industry 4.0 are phenomenon which are ...

LED display screens are large electronic devices, and good power distribution equipment is one of the important conditions for the system to achieve reliable op

It is an intelligent product integrating data collection, communication, reactive power compensation, power grid parameter analysis, control and other functions required by the smart grid. The product ...

Among our distribution boxes you will find the smart and practical solution for your project or business. From power and signal distribution to I& C applications and complete room solutions - we have just ...

As a leading electrical equipment manufacturer, Yimuda Technology Company has launched a new generation of intelligent distribution box series products, providing reliable and energy-saving power ...

Compared with the traditional power distribution box, it is safer to cut off the strong power supply remotely, and it can save energy through the timing mode while controlling the equipments ...
