

# Large-scale European micro-modular data centers

From heavy-load floors to modular solutions, discover how gbc engineers are redefining data center structural design across Europe's hyperscale market.

Germany dominated the European modular data center market in 2024 by occupying 26.2% of the European market share. The leading position of ...

Germany remains the largest market for modular data centers, reflecting a strong commitment to energy efficiency and sustainability initiatives. The UK is emerging as the fastest ...

Modular data centers assure scalability for future expansions, embody repeatable designs, and exhibit superior quality via factory control. This simplified assembly enables swift transportation by road, rail, ...

Discover the top 10 companies driving the future of modular data centres with innovative, scalable and sustainable infrastructure solutions. As computing demands surge, modular data ...

Data Centre Magazine rounds up the 10 largest data centre facilities and providers in Europe, including Equinix, Microsoft and Vantage Data Centres

Large data centers forms the largest segment in the Europe modular data center market. Their high capacity and simple scalability make them an ideal choice for large organizations looking to ...

Germany dominated the European modular data center market in 2024 by occupying 26.2% of the European market share. The leading position of Germany in the European market can ...

Europe's prefabricated and modular data centers market was valued at \$1 billion in 2024 and is expected to grow at a CAGR of 15.05% and reach \$4.08 billion by 2034.

This continent databook contains high-level insights into Europe modular data center market from 2018 to 2030, including revenue numbers, major trends, and company profiles.

The European market for prefabricated and modular data centers is projected to grow to \$4.08 billion by 2034, driven by AI, 5G, and EU regulatory demands. Europe's digital transformation is literally being ...
