

Low-noise active optical module original and genuine product

Buy genuine transceiver modules of Brocade, Cisco, Finisar, HPE, Huawei, Intel, Juniper and more from GenuineModules with best price and fast worldwide shipping.

Constant-on-time (COT) control provides fast transient response, high efficiency, and easy loop stabilization. Full protection features include cycle-by-cycle current ...

Explore Optohub's optical active modules, including LD and PD modules, designed for advanced applications with high performance and reliability.

With this ready-to-fly optical amplifier, users can accelerate space development and save on NRE - Non-Recurrent Engineering - cost. To ensure the highest quality and reliability, only space-qualified ...

These highly integrated LNA MMICs come in smallest packages with ESD protection and low power consumption. They are ideal for battery-operated devices like wearables, Wi-Fi devices, and ...

Constant-on-time (COT) control provides fast transient response, high efficiency, and easy loop stabilization. Full protection features include cycle-by-cycle current limiting and thermal shutdown. ...

This optical solution is positioned for reducing the development cycle time and allow for simple integration into advanced fiber optic sensing systems. External monitoring and control can be ...

This product complies with the European Union directive for Restrictions of Hazardous Substances (RoHS) - Restrictions on the Use of Certain Hazardous Substances in Electrical and Electronic ...

Our low noise amplifier selection includes models with wide bandwidth and flat gain, high IP3 and other desirable specifications to meet your needs in coaxial, MMIC surface mount and bare die formats. All ...

MACOMs portfolio of low noise amplifiers offer a broad array of noise figures, input IP3, and input power in bare die and a variety of package types. Offerings include wideband distributed topologies and self ...

The Optilab EDFA-PA-LN-N-M Pre-Amp EDFA is a dual staged low noise with narrowband filter and high-gain module for amplifying low input level signals that is an easy-to-use and cost-efficient ...
