

Morocco Figure 8 Fiber Optic Cable OS2

Customization available upon request.

GYTC8S fiber optic cable is a typical outdoor use self supported fiber cable for aerial applications. It's also called the figure 8 cable because of its structure looks like the figure 8.

(All-dry) Self-supporting Figure-8 Optical Cable (GYFC8S) Optical fibres are housed in loose tubes that are made of high-modulus plastic and filled with water blocking yarns.

This kind of cable use upper messenger wire to support aerial cabling. It is designed for places with heavy wind weather or even ice frozen climate.
