

Network Connect MOT-50 OTDR Fiber Optic Tester

The MOT 50 is a comprehensive OTDR tester designed for fiber optic applications. Equipped with a 5.5 inch touch screen, it simplifies navigation and provides real time monitoring to ...

It can measure the optical fiber length, transmission attenuation of optical fiber, attenuation of splice, and failure location, etc. If taking the all in one OTDR, it will make working conditions safer and increasing ...

Improvement cable tester, UTP cable, telephone cable etc sequence and continuity test, save testing report. Support detect the near-end, mid-end and far-end fault point of the RJ45 cable plug

5.55 inch OLED touch screen, 1280x720 resolution. OTDR Auto testing, event map, easy to use. Stable laser source, loss test, OPM and VFL. Report saved as SOR, PDF format etc. UTP cable test, cable ...

Find many great new & used options and get the best deals for MOT-50/51 OTDR Tester OPM VFL Optic Time-domain Reflectometer Optic Fiber Tester at the best online prices at eBay!

High Dynamic Range: With optional dynamic ranges of 24 to 28 dB, the MOT-50 Fiber Optic Breakpoint Fault Detector is designed for optimum performance. Versatile testing capabilities: This tester ...

Multi-function MOT-50 OTDR is an essential tool for fiber length, network and camera testing. OTDR displays the power of the returned signal related to distance.

Test, Troubleshoot and Certify cabling faster with the FiberMASTER OTDR. The FiberMASTER OTDR is available in 4 options, Quad, multimode, single-mode and PON. The OTDRs feature both high ...

Stable Laser Source & Optical Power Meter: The MOT-50 features a stable laser source and optical power meter for accurate fiber testing. Network Cable Testing: The MOT-50 supports network cable ...
