

# Niger 505nm Laser Diode Module

Housed in standard TO packages, these diodes are pigtailed to a 1-meter long single-mode fiber terminated with an FC/APC connector. Each unit undergoes rigorous testing prior to shipment to ...

This laser module is permanently fibered coupled to a single-mode fiber and provides a perfect beam with a polarization extinction ratio of more than 20 dB. By default, this type of laser is built with ...

The diode laser modules that output red, green and blue laser beam, as well as full-colour white-light laser beam (RGB laser diode modules), are used mainly in laser display projectors.

JUNO Compact series offers a Nd:YAG and Nd:YVO4 based diode pumped solid state product generating 505nm wavelength laser through the non-linear optical ...

JUNO Compact series offers a Nd:YAG and Nd:YVO4 based diode pumped solid state product generating 505nm wavelength laser through the non-linear optical crystal inside the resonator.

Laser diode module, DPSS laser, Fiber coupled Laser for sale : 505nm Laser Module

Pigtailed Laser Diode Modules are available with VIS and NIR wavelengths ranging from 405 to 1550nm, with output powers ranging from 1 to 100mW. Their plug and play operation make these laser diodes ...

Collimated Laser Diodes 405nm collimated LD module 445nm collimated LD module 520nm collimated LD module 635nm collimated LD module 660nm collimated LD module 670nm collimated LD module ...

The LWPRO-505-5 is a professional low-power semiconductor green laser module that provides stable continuous light output of 5mW at an emission wavelength of 505nm. The product includes a high ...

High-performance 505 nm diode laser module with single-mode fiber, delivering stable Gaussian beam for medical, sensing, and bio applications.

OBIS LX/LS lasers deliver high optical power with low noise, and high beam quality. The plug-and-play system is flexible, and users are able to rapidly integrate the laser. The result is reduced set-up time ...
