

Nordic Stock DAC High-Speed â€‹â€‹Cable OSFP

These 1.6T DAC cables deliver ultra-low latency and power-efficient connectivity between OSFP224 ports. They are primarily used for direct interconnection between 1.6T OSFP switches or ConnectX-8 ...

This will greatly help the legacy OSFP users upgrade the link bandwidth to 800G per port with lower cost and shorter transition time. Our staff will contact you within 24 ...

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

We specialize in complete InfiniBand DAC (Direct Attach Copper) and AOC (Active Optical Cable) product lines, covering all SDR to XDR rate standards. Fully compatible with NVIDIA Mellanox ...

Discover the future of high-speed direct attach cables with insights on OSFP DAC in this concise guide.

Our Electronics Products Product of the Year award- winning OSFP (Octal Small Form Factor Pluggable) cable assemblies are compatible with 25G/lane channel NRZ up to 112G/lane ...

The 800G OSFP DAC are used for intra-rack or inter-rack interconnections within data centers and are compliant with the IEEE 802.3ck 800GBASE-CR8 Ethernet transport protocol, as well as compatible ...

OSFP-800G-ACC is a passive copper cable with integrated equalizer circuits, capable of extending lengths to 3 meters, 4 meters, and 5 meters while maintaining low latency and low power ...

Yes, the 1.6T DAC cable is designed to be backward compatible with 400G OSFP and 800G OSFP standards, ensuring seamless integration into existing network setups.

Our OSFP Cable line-up is OSFP MSA compliant and protocol agnostic for worry-free integration into 200/400/800-Gigabit Ethernet and InfiniBand networks.

Built for High-Speed Data Center Scaling TE's Octal Small Form Factor Pluggable (OSFP) connectors and cable assemblies support aggregate data rates from 200 Gbps up to 1.6T, enabling data center ...

High-speed I/O passive cable assemblies that can deliver data rates as high as 400 Gbps with a variety of lengths or customized options for greater design flexibility.

This will greatly help the legacy OSFP users upgrade the link bandwidth to 800G per port with lower cost and

Nordic Stock DAC High-Speed â€‹â€‹Cable OSFP

shorter transition time. Our staff will contact you within 24 hours (working days). If you need ...
