

North African Well Temperature Measurement Optical Cable Brands

Recognized as the largest cable manufacturer in Sub-Saharan Africa, Coleman Wires and Cables delivers high-quality, locally produced electrical solutions trusted across industries, infrastructure ...

Here, you can immerse yourself in our premium metrology tools and equipment with professional hands-on demonstrations to find the ideal solution tailored to your needs, while our team of experienced ...

Our DPTS technology is comprised of a string of optical SmartPort pressure/temperature gauges, downhole optical cable, SmartPB surface pressure barrier, Wellhead SmartScope surface ...

The sensor is an optical fiber cable with a range of up to 14 km, a sampling interval down to 25 cm, and a temperature resolution of 1 °C. It can be configured with 1, 2 or 4 channels, each providing a range ...

Here, you can immerse yourself in our premium metrology tools and equipment with professional hands-on demonstrations to find the ideal solution tailored to your ...

Solexperts performs high precision temperature corrected fibre optic strain measurements and offers a complete service including: Installation on site (e.g. integrated into concrete structures, bonded to ...

Solexperts performs high precision temperature corrected fibre optic strain measurements and offers a complete service including: Installation on site (e.g. ...

Utilizing Multi-mode Fiber Optic cables, Distributed Temperature Sensing (DTS) provides quality downhole temperature data and is applicable in a wide variety of applications.

Test and Measurement Instruments C.C. (TMI) have supplied quality branded Test and Measurement Instruments & Equipment from Johannesburg, South Africa for 35 years like FLIR, Fluke, Lutron, EZ ...

Netilion is an award-winning IIoT ecosystem, designed for industrial processes. It connects the physical and digital worlds to send valuable information from the field to you anywhere at any time. A certified ...

The standard robust fiber optic sensor cable can withstand long-term operating temperatures between -40°C to +85°C, as well as short-term exposure to temperatures up to 150°C. Other fiber cable ...
