

These fusion splicer kits are compatible with a wide range of fiber optic cables, including single-mode, multi-mode, and ribbon fibers, offering flexibility for various projects.

We offer a range of equipment necessary for splice various special optical fibers, including polarization-maintaining fibers such as PANDA fiber, thin-diameter fibers, large-diameter fibers, and multi-core ...

Fiber Optic Center has fiber optic splicing equipment, including splicers, cleavers, protection sleeves, mechanical splicing tools and more. We distribute fiber optic splicing equipment from Corning, AFL, ...

Fusion splicers are essential for creating low-loss, high-performance fiber optic connections in telecom, FTTH, and data center applications. The best splicers offer core alignment, ...

Explore a wide range of fiber splicers featuring LCD screens, large battery capacity, and portable design. Perfect for field installation and maintenance work.

The indoor/outdoor fiber splice box from Amphenol Network Solutions is designed for splice-only applications. They are suited for optical cable splice collection points for DAS, MTU and MDU.

Designed for telecom professionals, FTTH installers, and network engineers, this machine delivers ultra-fast splicing speeds ( $\leq 6$  seconds) and low loss rates, ensuring reliable connections in any environment.

Altec also provides multiple pieces of support equipment for the telecom market when it comes to fiber splicing. To find out more about our individual models and request a quote, please select from the list ...

Leviton offers a full range of fusion fiber optic splicing solutions, including fiber splice modules in our popular HDX and SDX patching footprints. Fusion fiber splicing provides a permanent fusion ...

Fiber Instrument Sales has a wide variety of fiber optic splicing equipment such as fusion splicers from AFL, Sumitomo, FITEL, and FIS. FIS also splicing tools and accessories such as cleavers, thermal ...
