

Product Code for Fiber Optic Distribution Unit

FDU's have a design optimized for interconnecting incoming fiber optic cables and pieces of equipment with a wide range of specifications. These tools can accommodate between 72 and nearly 300 fiber ...

Fiber optic distribution and interconnect cables shall be suitable for indoor applications, complying with UL standards for Riser and IEC standards for low smoke / zero halogen (LSZH).

19"U Standard Structure, Easy to Install The 19" standard cabinet installation rack is equipped with an integrated unit box for optical fibre fusion and distribution, with safe and reliable optical fibre connection.

1X32 Rack Mount type fiber optic splitter uses a standard 19 inch(1U) rack unit to contain ABS box PLC splitter for optical signal distribution,Free sample.

Product Overview Distribution cable and drop cable is connected in between the optical fiber distribution unit (FDu), which is an important part of the whole optical distribution network (ODN).

The HTB8067 24 Port Indoor Fiber Optic Distribution Box is designed for clean, efficient cross-connection between outdoor backbone cables and indoor subscriber fibers.

Optimize your network management with our high-density Fiber Optic Patch Panels and ODFs. Available in 1U/2U/4U rack mount and wall mount configurations, supporting SC, LC, FC, and ST ...

Wall mount single outer door distribution unit with lockable network compartment door and 4 termination panel capacity. The Multilink series of wall mounted optical termination enclosures are designed to ...

Discover Fiber Distribution Hubs (FDHs), fiber cabinets, and other outdoor cabinet solutions by CommScope. Efficiently manage your network with our reliable fiber optic distribution cabinet solutions.

Use the code in the "Fiber Type" column to replace the XX notation in the catalog number shown on the catalog page. This identifies the fiber that will be provided with the cable choice.
