

The laboratory is accredited since March 2003 for measurements of activities of gamma-ray and x-ray emitters in cylindrical homogenous samples with high-resolution gamma-ray spectrometry.

A member of the AMETEK Materials Analysis Division, SPECTRO is one of the worldwide leading suppliers of analytical instruments, employing optical emission and X-ray fluorescence spectrometry ...

Slovenian NMR centre is a national facility that offers infrastructure and expertise in the field of NMR spectroscopy to scientists and researchers in academic and industrial institutions.

Slovenian NMR centre is a national facility offering access and expertise in NMR to users in academic and industrial institutions.

Market Forecast By Type (Optical spectrometer, Mass Spectrometer), By Applications (Chemical Industry, Environmental Factors Testing, Pharmaceuticals, Food & Beverages Biotechnology, ...

NMR spectra are unique, well-resolved, analytically tractable and ...

NMR spectra are unique, well-resolved, analytically tractable and often highly predictable for small molecules. NMR analysis is therefore used for confirming the identity of a substance. Different ...

Applications are open from January 30 to May 15, 2026, for anyone interested in how these molecules are shaping the future of medicine. Find more information here. 30. 1. 2026. We encourage all ...

The NMR spectrometer is the first of this kind of instrument to be found in the new member states of EU and represents one of the largest investments in a free-standing piece of research equipment in ...

Slovenian NMR centre is a national facility open to academic researchers and researchers from industrial partners who require the use of high-field high resolution NMR spectroscopy in solution or ...

Slovenian Spectrometer
