

Somali 830nm Laser Diode Packaging

We use bare laser diode chips sourced from multiple chip manufacturers, allowing for fast and efficient production of module solutions spanning various wavelengths and power levels.

Proprietary design, packaging, and fiber coupling processes produce laser diodes with very high stability and low noise. Each laser diode is subject to extensive testing and burn-in before shipment to ensure ...

This package design features the smallest footprint and high output power. This results in a high packing density which allows for an extremely compact system design. The highly thermal-conductive base ...

Other power level and fiber type are available upon request, please click [Quote](#) for quotation.

Lasermate Group, Inc. is proud to offer 830nm laser systems. Our laser products at 830nm include the following series:

These reliable, efficient, and compact diodes come in TO-Can packages, making them perfect for OEM integration. Additionally, they operate with TE mode oscillation and are RoHS compliant, ensuring ...

Pigtailed Laser Diode Modules feature an integrated 1m long, single mode fiber with an FC/PC connector. These laser diodes also feature an integrated driver for plug and play operation, only ...

They are available in Chip-on-Submount, TO-Can, and Butterfly packages. Popular applications include Raman Spectroscopy and Medical treatments. Why choose a single-mode diode? Structurally ...

PD-LD Inc. offers a variety of packaging options for its" Near Infra Red Series of laser diodes. These units are available in ready-touse, fiber-coupled packages, ...

To help prevent device failures, the user should always wear an ESD wrist strap, ground all applicable work surfaces and follow anti-static techniques when handling diode lasers.

We use bare laser diode chips sourced from multiple chip ...

This 830 nm laser diode has a singlemode fiber (Hi780) and an FC/APC fiber connector. It is also available with various OPTIONS such as PM fiber and/or ...

Agiltron offers an 830 nm multimode semiconductor laser diode module series manufactured using precision optical coupling technology. These compact modules deliver high power and high efficiency ...
