

Tension-resistant optical cable models and specifications

Belden's extensive line of indoor and outdoor cable products is offered in tight buffer and loose tube designs. Armored, burial, and ruggedized designs are suited to a host of industrial environments.

Our easy-payout boxes for Category 5e and Category 6 cables were designed with direct input and feedback from users. Our boxes feature dual reinforced handles and have proven to be as durable ...

The Optronics fibre optic cable range includes simplex, duplex and flat ribbon patchcords, tight buffered, single loose tube and multi-loose tube distribution cables for internal and external applications as ...

Fiber optic links can be bare fiber, buffered fiber or Strong Tether Fiber Optic Cable (STFOCTM). These spools are for slow, low tension payout or high-speed rapid payout.

CommScope's innovations in fiber optic cable have enabled it to produce fiber cables that delivers consistent, fast performance over long distances.

Specifications ... * Note: Corning recommends storing cable in a proper temperature environment prior to installation to allow the cable temperature to meet installation tempera-ture ...

Optical Fiber Core could be applied as G.652.D, G.655, G.657.A1, G.657.A2, OM1, OM2, OM3, OM4 according to needs. Maximum Tensile Strength could be changed according to technical demand. ...

Using our patented cable jacket construction designed to protect the fiber from harsh mechanical conditions; our cables are stronger, lighter and smaller than existing flight qualified cables.

Our team will make sure the configuration is tailored to your needs and will provide a detailed quote. Email us using the Request a Quote below, or give our team a call.

AIRGUARD® XP cables are extremely rugged, indoor/outdoor loose tube cables providing unsurpassed performance in the most challenging applications where extreme exposures to chemicals, oils, ...
