

# Waterproof type optical cable fault locator for rail transit

This type of fault allows the current, carried by the conductor to leak to the earth directly or indirectly instead of going to the apparatus to which the conductor is connected.

Pinpoint fiber faults and identify cables in seconds with our smart optical cable locator - non-destructive, multifunctional, and cloud-connected for ultra-efficient field operations.

FS offers 1mW, 1.3mW, 10mW, 20mW and 30mW visual fault locator for locating faults and verifying continuity and polarity. Order FS VFL with fast shipping now!

Each product offers easy operating features which minimize user training and reduce excessive damage to the cable under test. See our full range of cable fault locating tools and equipment below.

It can precisely locate broken cables, short circuits, and ground leakage faults (with ground insulation resistance within 0.5 megohms), and detect the depth and path of buried cables.

Portable 5-in-1 Fiber Optic Cable Tester with Optical Power Meter, Cable Finder, Visual Fault Locator & RJ45 Network Cable Test, SC/FC/ST Universal Interface with LC Adapter

It can be applied to daily optical cable resource design, completion acceptance and routing precision standard. There is no need to form a team, open a well or lift the cable. One person, one hammer ...

Whether installing or troubleshooting, the Visual Fault Locator (VFL) is an essential tool that quickly and easily locates problem areas in fiber cables. By pinpointing the exact location of fiber damage, ...

A hand-held, battery-powered tool, the VFF5 projects a highly visible red light into a fibre optic cable. The VFF5 is used to check continuity of cabling between termination points and to locate bends or ...

This type of fault allows the current, carried by the conductor to leak ...

With a separate receiver and probe, it is portable, easy to use, and offers high positioning accuracy. Visual Fault Locator with long battery life, multiple connectors, stable light source, and breakpoint ...
